Light-level and presence sensor from the TROLL family DALI.

DESCRIPTION

Light-level and presence sensor from the TROLL family DALI 11.1801.3030.00 enables simple, automatic constant light control and presence detection (both can be deactivated if necessary). Simple group assignment via rotator switch, with possibility of multiple sensors in a group. A sensor can control up to 64 drivers. Sensor 11.1802.3030.00 can be remote controlled and individual adjustment of the parameters can be done with configuration software.. Significant energy savings can be achieved in various applications such as offices, schools, factories, airports and shopping centres. Fed through the DALI Line.

Item code	11.1801.3030.00
Product type	CONTROL
Category	Sensor
Family	DALI
Subfamily	Sensores DALI
Installation instructions	Sensor designed to be surface mounted.
