## Light-level and presence sensor from the TROLL family DALI.

## DESCRIPTION

Light-level and presence sensor from the TROLL family DALI. 11.1801.3030.00 enables simple, automatic constant light control and presence detection (both can be desactivated if necessary). Simple group assignment via rotator switch. with possibility of multiple sensors in a group. A sensor can control up to 64 drivers. Sensor 11.1802.3030.00 can be remote controlled and individual adjustment of the parameters can be done with configuration software. Significant energy savings can be achieved in various applications such us offices, schools, factories, airports and shopping centres. Fed through the DALI Line.

Item code	11.1801.3031.00	
Product type	CONTROL	
Category	Sensor	
Family	DALI	
Subfamily	Sensores DALI	
Installation instructions	Sensor designed to be ceiling recessed installed.
